

DONNER CREST

Custom Homesites • Truckee, California

The new homes you see on lots 43 and 65 at Donner Crest were built by J Propp Construction. Their company is also available on a build-to-suit basis for a lot you already own, whether within Donner Crest or the greater Truckee area. You can see the quality of their work in the home now under construction on Lot 65 and from the photos of the recently completed home on Lot 43. These 2 plans, in addition to many others, can be customized to meet your personal preferences and needs. With over 30 years experience in the custom homebuilding business, John and Jackie Propp can facilitate the exciting and sometimes challenging process of building your dream home.
